BLACK AMBIENT MANIFESTO

Black ambient manifesto is the brainchild of singer/songwriter Judd Hoskins. Born and raised in Newton, Iowa, Judd writes the soundtrack to the instability of thought while projecting a hint of hope surfacing above the fog. While Judd is a very private person, he bears all through his lyrics - unashamed and honest. He calls it therapy. We call it art. **More information at myspace.com/blackambientmanifesto.**

COLLECTIBLE BOYS

Collectible Boys has been bringing their original music to the Iowa City area for over a year, playing songs that range in style from blues to rock and jazz to pop. With shared songwriting talents by vocalist/lyricist, Renee, and the boys, Justin Mann, Bill Peterson, and Chris Wood, Collectible Boys provides tunes that tell stories and music you can move to. After seeing his first show, one fan described their style as "laid-back, soulful music that causes your senses to transport to a state of ataraxia." **More information at myspace.com/collectibleboys.**
