JON ERIC

Jon Eric is best known for his banjo skills. Jon's dedication and years of playing have led him to become a legend in pushing the boundaries of what the banjo can sound like. "I love all types of music, but many people really underestimate what the banjo can do," he says. Jon Eric's expertise also includes guitar, vocals, and dobro. He is well educated in music production and currently teaches to share his love of music. **More information at jonerictimusic.com.**

Featuring tight harmonies and prolific original songs, SlewGrass has it all. With a stroke of luck, Jon Eric (formerly of The Mayflies) agreed to share in some music and fun. Take a listen to the grass roots sounds of honest lyric and tasteful additions on viola. They form a band that is sure to fit a "niche" in the surrounding music scene.

Grab a friend and your dancing shoes and be ready for some bluegrass bliss! **More information at myspace.com/slewgrassmusic.**
